Presented by: Matrix Therapy Products Corp.

HOW TO GET AND KEEP YOUR HORSE SOUND

One-day Intro Class for **HANDS ON** micro current therapy. Micro current is very low-level electrical stimulation in the micro amperage range, which is slightly above the body's natural production of current. The little extra current creates a helping hand to stimulate the body's own natural healing ability. Micro current can be used as an adjunct therapy. MCT is premier as a first line of defense for drug free maintenance on performance horses. The treatments are easy to learn and very safe. Join the hundreds of horse owners that have learned the amazing secrets of micro current therapy. The purpose of this class is to help you understand electrical current and to be able to apply multiple types of treatments with confidence.

Micro Current Therapy (MCT) benefits the fascia, nerves, muscles, bones, tendons and ligaments. Treat the whole horse at once or be site specific. Only MCT allows a full spectrum of treatment styles and optional diagnostics capabilities.

Soreness	Soft Tissue	Joints
Muscles	Tendons	Arthritis
Back	Ligaments	Splints
Poll	Strains	Ringbone
Feet	Tears	Fractures

Join us and learn how MCT can help you keep your horse sound, fit and happy.

Micro 101 for \$ 95.00

This class is a (1) day introduction perfect for beginners or review to brush up on your skills.

Micro 103 for \$ 350.00

The two-day class is for professionals or anyone wanting a more in-depth session. This class will cover all features of a Micro Current instrument including GSR readings.

Classes are for Equine owners and those who handle horses on a regular basis only. No auditors. Horses provided for training.
